

**Board of Foreign  
Scholarships**

**FULBRIGHT  
PROGRAM  
EXCHANGES**

**June 1985  
Twenty-second Annual Report**

... there is a flickering spark in us all which, if struck at just the right age ... can light the rest of our lives, elevating our ideals, deepening our tolerance, and sharpening our appetite for knowledge about the rest of the world. Educational and cultural exchanges, especially among our young, provide a perfect opportunity for this precious spark to grow, making us more sensitive and wiser international citizens through our careers.

*President Ronald Reagan  
The White House  
May 24, 1982*

## ABOUT THIS REPORT . . . . .

In this report we mark the 39th year of the Fulbright Program and the Board of Foreign Scholarships. The Board was established by the United States Congress under the Fulbright Act signed into law by President Truman on August 1, 1946. Our role was reaffirmed and expanded under the Mutual Educational and Cultural Exchange Act of 1961. A Presidentially appointed body, we supervise the worldwide Fulbright Program, including the selection of all Fulbright grant recipients here and abroad. This includes students, teachers, scholars and individuals in the professions who accept Fulbright awards to come to the United States or American citizens who go abroad for similar exchange purposes. This report to the Congress and to the public briefly describes these activities for the 1983-84 and 1984-1985 program years.

In fulfilling our statutory responsibilities for the selection of exchange participants in these two program years, the Board selected over 5,000 individuals (United States citizens and those of over 120 participating countries) to carry out scholarly and professional projects in the United States and abroad. Quality and ability continue to be the standards by which we judge individual applicants for Fulbright awards.

Since our last report in December 1983, the Board has witnessed substantial increases in financial support for the exchange program, along with the introduction of additional legislation in this field. We have considered ways to improve the recruitment of grant participants and to establish new types of grants, including serial and pool grants, additional regional projects, collaborative research awards, and expanded opportunities for American graduate students in third world areas. We have also responded to Administration and Congressional initiatives for undergraduate exchanges.

More recently the Board has been devoting its attention to ways to best mark the fortieth anniversary in 1986 of educational and cultural exchanges and the Fulbright Program in the United States and in the countries participating in the program. We have been gratified by the early support in our initial efforts shown by USIA Director Charles Wick and Deputy Director Marvin Stone.

These and other developments are described in more detail in the following pages which summarize our stewardship of exchanges under the Fulbright Program for 1984 and 1985. We include in the appendix new statistical summaries showing Board supervised Fulbright exchanges by grant category and country covering both academic exchanges administered by USIA and foreign area and language training awards administered by the Department of Education.

Again, we acknowledge with warm appreciation the strong support given these exchanges by participating governments, binational Commissions around the world, the American Embassies, assisting organizations, participating educational institutions and individuals here and abroad. Finally, we gratefully acknowledge the continuing support of the executive and legislative branches of the United States Government which remains our most vital source of encouragement and strength.

James B. Meriwether, *Chairman*

**Fulbright Exchange Program  
1960 to 1985**

*Fiscal year obligations for Fulbright academic exchange programs, United States Information Agency, expressed in 1972 dollars (Implicit price deflator for gross national product; source, Department of Commerce, Bureau of Economic Analysis).*

This report describes Fulbright educational exchanges for two program years, 1983-1984 and 1984-1985. We have done so in order to provide more timely information and statistical data on the exchange programs under the Board's authority. Fulbright Program activities and related Congressional and Administration initiatives are described in the following pages.

## Expanding the Fulbright Program

The period covered by this report has witnessed dramatic increases in the funding of academic exchanges by the United States Congress and the Administration. The Congress in 1982 under the so-called Percy-Pell Amendment to Public Law 97-241 mandated a doubling of exchange-of-persons programs administered by USIA between fiscal year 1982 and fiscal year 1986. These included notably the Fulbright Program, the Humphrey Fellowship Program, the International Visitor Program, and a program of grants to private, not-for-profit organizations engaged in exchange-of-persons activities. The first two of these programs are supervised by the Board of Foreign Scholarships.

Since 1965 funding for these exchange programs had declined approximately 40%. The Congressional action sought to reverse the erosion in the funding of U.S. exchange programs. To accomplish this, the Congress appropriated \$43.9 million for Fulbright exchanges in fiscal year 1983, \$59.8 million in 1984, and an estimated \$77 million in 1985. (See also table, page vii)

Increased financial support by the Congress and the Administration has permitted some expansion of exchanges with developing countries and regions. For example, fully-funded grants for students from countries in Africa, including renewal awards, rose from 227 in 1980 to 272 in 1984. While only one Fulbright award was available for an American to study in sub-Saharan Africa in 1980, twenty-seven were offered in 1984.

Worldwide, Fulbright awards for graduate study abroad for American students have been increased from 308 in 1982 to 514 in 1985, in an effort to restore in part their numbers to those of earlier years when there were fewer countries participating in the Fulbright Program.

In response to President Reagan's Central American Initiative and Congressional support for it, Fulbright exchanges with seven countries of the region were greatly expanded in 1985. High priority on exchanges and training grants was the result of earlier recommendations by the President's National Bi-Partisan Commission on Central America under the chairmanship of Henry Kissinger.

A pilot scholarship program for undergraduates from central American countries, particularly for upwardly mobile youth with leadership potential, will also be underway by late 1985. The Board will supervise these exchanges, the first large-scale undergraduate program under Fulbright auspices.

Closely related to the proposed undergraduate scholarship program for students from the countries of Central America was legislation introduced initially in the House and Senate in 1984, enacted into law in 1985, authorizing a U.S. Scholarship Program for Developing Countries. The Act authorizes the Bureau of Educational and Cultural Affairs in USIA to conduct a new major scholarship program for talented undergraduates from disadvantaged backgrounds. Funds for the program must either be supplied from USIA funds for non-exchange activities, or from an additional appropriation from Congress.

The new Act directs the Board of Foreign Scholarships to advise and assist the President in the discharge of programs authorized by the Act.

*cultural life. The President shall insure that academic and cultural programs under the authority of the Bureau shall maintain their scholarly integrity and shall meet the highest standards of academic excellence and artistic achievement."*

USIA Authorization Act, FY 1984 & 1985  
(Title II, Public Law 98-164)

This language appears in the legislative charter for the exchange programs carried out by the Bureau of Educational and Cultural Affairs, enacted by the Congress in 1983. The full charter has been added as Section 112, Mutual Educational and Cultural Exchange Act of 1961.

The language of the charter and the statements in the Senate Foreign Relations Committee report accompanying the bill prior to its adoption are of great significance to the Board of Foreign Scholarships and to those associated with it in the conduct of the Fulbright Program.

Selected excerpts from the Act and the Senate committee report follow:

— Section 112(a). In order to carry out the purposes of this Act, there is established in the United States Information Agency, or in such appropriate agency of the United States as the President shall determine, a Bureau of Educational and Cultural Affairs (hereinafter in this section referred to as the "Bureau"). The Bureau shall be responsible for managing, coordinating, and overseeing programs, established pursuant to this Act, including but not limited to

(1) the J. William Fulbright Educational Exchange Program which, by promoting the exchange of scholars, researchers, students, trainees, teachers, instructors, and professors, between the United States and foreign countries, accomplishes the purposes of section 102(a)(1) of this Act;

(2) The Hubert H. Humphrey Fellowship Program which finances (A) study at American universities and institutions of higher learning, including study in degree granting programs, and (B) participation in fellowships, internships, or other programs in American governmental and nongovernmental institutions for public managers and other individuals from developing countries; . . . . .

(6) The American Studies Program which fosters and supports the study of the United States and its people and culture in foreign countries; . . .

- The purpose of the charter is to insure that the scholarly integrity, the excellence and the non-political character of these programs are maintained.
- These programs serve the long-term security interests of the United States by promoting mutual understanding between Americans and citizens of other countries and by exposing foreign students, scholars, and leaders to American society, institutions and values. The effectiveness of these programs can be seriously undermined if they are perceived as a short-term exercise in promoting a particular viewpoint.
- The Committee expects that the Board of Foreign Scholarships, which is essential to the administration of the academic programs of the ECA Bureau, shall be a completely non-partisan institution.

## University Affiliation Program

In 1982 the U.S. Information Agency and the Board of Foreign Scholarships initiated a university affiliation program in a pilot project linking 13 universities in the United States with uni-

Since 1982 some ninety other university affiliations have been underwritten between American universities and those in other areas of the world. U.S. colleges and universities have responded with enthusiasm to this new program with keen competition for the 25-30 grants offered annually by the Board and the Agency. The awards provide incentives for the establishing of a linkage with a counterpart institution in another country. Priority fields are the social sciences, humanities, education, and communication. The affiliation grants complement rather than replace traditional Fulbright exchanges.

Appraisals of the results of individual university affiliations will be made at the conclusion of the three-year grant period of each.

## Fortieth Anniversary—1986

The Board devoted considerable time and attention in the first half of 1985 to designing a detailed plan of possible events appropriate to mark the fortieth anniversary of educational and cultural exchanges and the Fulbright Program in the United States and abroad in 1986.

Three areas for such anniversary activities are: (1) those sponsored by binational Commissions, American Embassies, or Fulbright alumni abroad; (2) program issues and projects initiated to commemorate 40 years of educational and cultural exchange; and (3) special events here and abroad co-sponsored with other organizations and educational institutions, in cooperation with the U.S. Information Agency.

The Board sees the commemoration as primarily programmatic rather than purely ceremonial, and as an opportunity to assess past and future exchanges. It has urged USIS posts and binational Commissions abroad to participate individually in the worldwide observance of the anniversary throughout the year in whatever manner they judge appropriate.

By mid-year the Board had endorsed a series of proposals, established a working group, and had written letters to chairmen of 41 binational Commissions and to Public Affairs Officers in all countries with significant Fulbright exchanges.

## THE FULBRIGHT PROGRAM ABROAD

. . . the programs of grants and university cooperation—including the Fulbright scholarships from which the pick of our researchers have benefited—have given fresh life to the scientific and intellectual capacity of our intellectual circles.

*King Juan Carlos  
State Dinner in Madrid  
for President Reagan  
May 7, 1985*

The Fulbright Program continues to enjoy an outstanding reputation abroad for scholarship. Alumni of the Program—now numbering almost 100,000 abroad—are in leadership positions in education, government and industry, the professions, and the arts in many countries. Alumni have remained interested in the Fulbright Program, its current activities and its future destiny.

Alumni, together with universities, host governments, binational Commissions, and American Embassies have honored the Program by joining in ceremonies marking local anniversaries and other important events as these examples illustrate:

— The Fulbright Alumni Association in Belgium in late 1983 arranged an academic symposium on U.S.-European Relations to commemorate the 35th anniversary of the Fulbright

- The 20th anniversary of the Fulbright Program between Yugoslavia and the United States was marked by ceremonies in both Belgrade and Washington, D.C. in November 1984. The anniversary in Belgrade, arranged by the Fulbright Commission and the Embassy, included speeches by historians of both countries, and film and videotape messages, both supporting the Fulbright Program and underscoring the positive cultural relations between the two countries. Program alumni were among the participants. The event was marked in Washington by a symposium at the Library of Congress in cooperation with the Embassy of Yugoslavia and USIA. Senator J. William Fulbright and Ambassador Mico Rakic were among those participating.
- In a brief 35th anniversary ceremony in Oslo in January 1985, Norwegian Foreign Minister Sven Stray applauded the contribution of the Fulbright Program to Norwegian-American understanding and the exchange of knowledge between Norway and the United States. Speaking at the Royal Norwegian Ministry of Foreign Affairs before a distinguished audience including American and former Norwegian Fulbright grantees, Minister Stray noted that the exchange of over 3,200 individuals during 35 years had benefited both countries and the cause of world peace.
- The first officers of the recently constituted Fulbright alumni Association of Liberia were installed in a ceremony in Monrovia in January 1985 with prominent U.S. and Liberian officials and many alumni participating. The Association has planned a series of educational programs in 1985 and beyond.
- Austrian Fulbright alumni—some 350 former grantees during the period 1951-58 and 100 grantees, 1982-84—were honored at a reception by Ambassador Helene von Damm-Gurtler in February 1985. This was the first of a series of receptions to bring together all "classes" of former Austrian Fulbright grantees numbering over 2,300.
- In March 1985 the Luso-American Educational Commission marked its 25th anniversary and that of the Fulbright Program between Portugal and the United States with a series of special events throughout Portugal. A special ceremony at the Gulbenkian Foundation before an audience of 175 included many Fulbright alumni as well as prominent American and Portuguese officials. In Washington, the Portuguese Ambassador to the United States was host at a ceremony commemorating the anniversary, with Senator Fulbright as a guest of honor.
- A group of eighty young Dutch school students prepared and sent a special eleven foot birthday card to Senator Fulbright in April 1985 with 115 flags symbolizing the nations participating in the Fulbright Program.
- More than 100 prominent Japanese Fulbright alumni visited Washington, D.C., and dozens of college towns across the United States, April 26 to May 6, 1984. The group included the presidents of corporations and newspapers, a retired chief justice of the Japanese Supreme Court, university professors and journalists. They called their visit "The Sentimental Journey," undertaken in gratitude for their opportunities to study in the United States. That gratitude had already been abundantly demonstrated by a private fund-raising campaign, initiated by some 5,800 alumni in 1982, which has raised over \$1.6 million to finance additional scholarships and fellowships for Americans and Japanese under the Fulbright Program. During their Washington visit, Vice President George Bush met with the group. They also visited Congressional and Senate offices, were welcomed by USIA and other government officials, and by Senator Fulbright.
- A recent issue of the *London Times* included a lengthy article by former British Fulbright Fellow and current binational Commission member Nicholas Stacey reviewing the results of 27 years of exchanges between the United States and the United Kingdom. During

THE BINATIONAL COMMISSIONS AND PROGRAM COSTSHARING

Responsibility for exchange program operations in 42 of the 120 countries participating in the Fulbright Program rests initially with a binational commission established by executive agreement between the government of the United States and that of the respective host country. See appendix for countries and dates of agreements.

The commissions, many of which were established in the late 1940's and early 1950's, play a key role in the conduct of educational exchanges with the United States. Financial contributions by participating governments continue to rise.

Commission membership ranges from 8 to 14, composed equally of United States citizens and those of the participating country. The American Ambassador, who serves as honorary chairperson or co-chairperson, appoints the American members; national mem-

<sup>1</sup>Agreement does not provide for cost sharing; foreign government contributions are received periodically but not always on an annual basis.  
<sup>2</sup>Amounts reflect only the foreign government financial contribution made directly to each binational Commission.  
<sup>3</sup>Excludes contractual dollar costs.  
<sup>4</sup>Financed from the annual proceeds of a Trust Fund under an exchange agreement concluded between the two governments in 1975.

bers are named by the Foreign Minister or a comparable senior foreign government official. Each commission has a small local staff handling the daily work of the exchange program abroad.

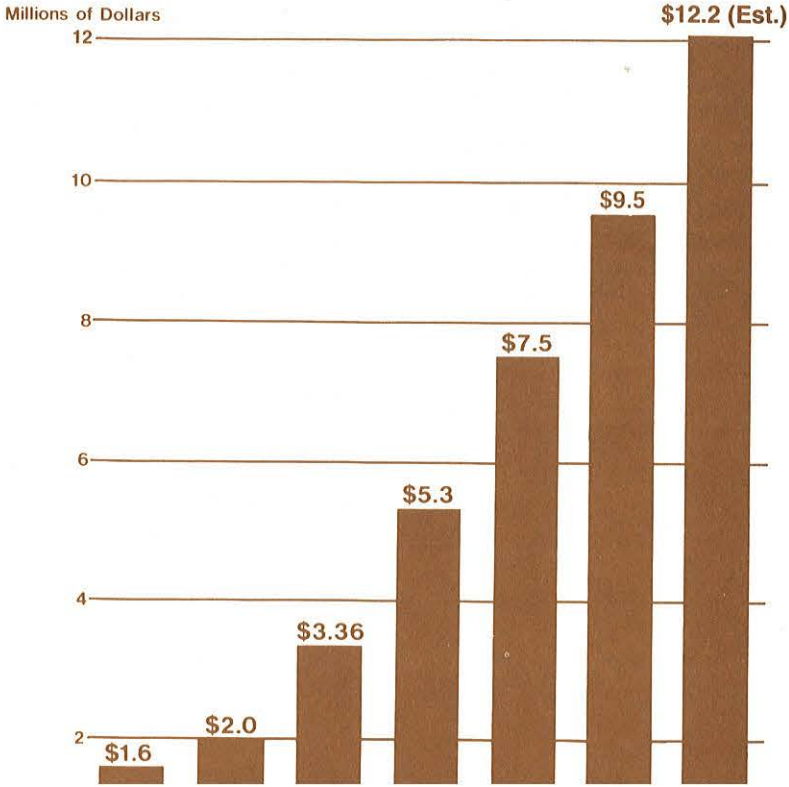

Commission program operations are carried out under broad policy guidelines established by the Board of Foreign Scholarships with the assistance of several cooperating organizations in the United States. Program administrative and fiscal support are provided by the United States Information Agency and its Bureau of Educational and Cultural Affairs, as well as by the United States Information Service at American Embassies abroad. The Board maintains direct communication with the binational Commissions

budget. Another principal function of the commissions is to provide counseling advisory services to an increasing number of students wishing to study in colleges and universities in the United States under various sponsorship or under private funding. The European commissions alone estimate that over 150,000 students in Europe are assisted annually in such counseling activities.

Other program responsibilities include screening, interviewing, and nominating to the Board of Foreign Scholarships qualified candidates for student and faculty grants under its exchange program; placing American students and scholars nominated for grants at participating host-country universities; monitoring the progress of grant participants during the academic year; and arranging for the orientation of arriving and departing exchange participants.

In 1985 twenty-seven countries with binational Commissions shared the cost of the exchange program through direct financial contributions to such commissions. Their contribution was \$12,269,520 (see table below). Participating governments and host institutions in many countries also contribute significant financial resources indirectly in support of Fulbright exchanges in the form of supplemental salary or grants, tuition waivers, university housing, and other benefits. While specific data is not available on the total dollar value of these contributions worldwide in support of Fulbright exchanges abroad, the amounts are significant.

Foreign Government Costsharing Contributions  
in Support of Binational Commissions  
(1966-1985)

# COOPERATION WITH PRIVATE INSTITUTIONS

A number of specialized organizations in the United States play a key role in assisting the Board of Foreign Scholarships and the U.S. Information Agency in the administration of the Fulbright Program. These organizations receive substantial public funds from Agency appropriations each year for program and administrative costs.

These organizations are specialists in the field of international educational exchange. They assist in administering the grant programs worldwide or are experts in similar exchanges for a particular geographic area or specific countries. Both the Board and the Agency monitor the performance of these organizations, with the Board insuring adherence to its broad policy guidelines and preservation of basic standards for which the Fulbright Program has become widely recognized.

The Table below identifies the leading cooperating organizations and their respective administrative and operating budgets for exchange grants, allocated from USIA funds for the 1984 and 1985 fiscal years.

Organization	Budget	
	FY 1984	FY 1985
American Council on Education, Council for International Exchange of Scholars	\$9,934,529	\$18,376,417
American-Mideast Educational and Training Services (AMIDEAST)	895,304	1,134,490
National Academy of Sciences, Committee on Scholarly Communication with the People's Republic of China	1,229,920	1,100,658
American Council of Learned Societies, International Research and Exchanges Board (IREX)	2,200,000	2,200,000
Institute of International Education (IIE) Hubert H. Humphrey Fellowship Program	3,789,723	4,386,036
Student Exchange Programs	13,271,677	14,366,319
Latin American Scholarship Program of American Universities (LASPAU)	1,955,840	2,234,799

# HUBERT H. HUMPHREY FELLOWSHIP PROGRAM

For the sixth year of the Humphrey Fellowship Program, the Board of Foreign Scholarships early in 1984 approved the selection of 136 principal candidates and 31 alternates for the 1984-85 program year. One hundred and thirty-three candidates from 72 countries accepted their fellowship awards. They were placed at 15 universities in the United States.

It is anticipated there will be 145 Humphrey Fellows this coming year (1985-86). In March 1985 the Board approved the selection of 181 principal and alternate candidates representing 77 countries from a possible 93 eligible to participate. The Board's area subcommittees are responsible for examining the applications and qualifications of individual candidates nominated for Humphrey awards.

In 1984 at the conclusion of the 1983-84 academic year, USIA commissioned a study to determine how effectively the Humphrey Fellowship Program is being administered. While the Board played no part in the design of the study, undertaken by a former senior career USIA Foreign Service officer, it did discuss and comment on the conclusions and recommendations. Among its comments the Board recommended rejecting the notion of allocating Humphrey Fellowships by country quotas. It was also suggested that the Agency examine ways in which to strengthen the internship or professional visits phase of the Humphrey Fellowships. A follow-up survey of former Humphrey Fellows was also requested since it was lacking in the USIA study.

## SUMMARY OF MAJOR ACTIVITIES

### BOARD MEETINGS

The Board of Foreign Scholarships met in Washington, D.C. in March, June, October and December 1984, and in March and June 1985 for its regular quarterly two-day meetings. The Executive and Planning Committee met three times during this period in September 1984, and in February and April 1985.

Dr. Ronald L. Trowbridge, Associate Director for Educational and Cultural Affairs, U.S. Information Agency, met with the full Board to discuss current exchange program operations at each of the quarterly meetings.

At its meeting in March 1984 the Board voted to continue Dr. Gerhart Niemeyer as Chairman, and elected Dr. James B. Meriwether as Vice Chairman.

Executive Directors of binational Fulbright Commissions in nineteen countries in Europe and in Israel met with the Board at its June 1984 meeting for discussions on exchanges between Europe and the United States. The executive officers were in the United States to participate in the Williamsburg-Washington Fulbright Program Workshop. The Board also welcomed to their first meeting four new members.

In October 1984 the Board elected as its new Chairman Dr. James B. Meriwether, who had served as acting chairman upon the resignation of Dr. Gerhart Niemeyer.

The new Chairman announced the creation of two *ad hoc* Board subcommittees to deal with the cooperating agencies assisting in program administration, and to specialize in American Studies exchange activities. The Board also restated and reaffirmed the role and responsibility of its membership in carrying out their annual review of academic exchange program proposals and country plans submitted to the Board and USIA by binational Commissions and USIS field posts.

When the Board met in December 1984 it gave initial consideration to several proposed events to mark the 40th anniversary in 1986 of educational exchanges under the Fulbright program. Elected as new Vice Chairman was Mr. Richard Ware.

The Board met with officers of the Institute of International Education in March 1985 to discuss and approve 1985-86 nominations for the Hubert H. Humphrey Fellowship Program. At this meeting the Board also met with officers of the International Education Programs, Department of Education, responsible for Fulbright foreign area and language training programs supervised by the Board. A resolution was also adopted setting forth Board views on the expansion of academic exchanges with the countries of Central America under President Reagan's Central American initiative.

When it met in June 1985, the Board completed its task of identifying a number of proposed activities for its sponsorship here and abroad to mark the fortieth anniversary of educational exchanges under the Fulbright Program in 1986. A resolution was also adopted stating that travel was essential for the Board to carry out its statutory obligations as a supervisory body for the Fulbright Program. Any real curtailment of such travel is ultimately a curtailment of the independence of the Board of Foreign Scholarships.

### HUMPHREY FELLOWSHIP PROGRAM

In March 1984 the Board approved the selection of 167 candidates, principals and alternates, from 82 countries nominated for Hubert H. Humphrey Fellowships for the 1984-85 academic year. A year later at its meeting in March 1985, the Board approved the selection of 181 principal and alternate candidates from 77 countries nominated for the academic year 1985-86.

### FUTURE COUNTRY PLANS AND PROGRAMS

Five geographic area subcommittees of the Board passed upon 1985-86 and 1986-87 program plans proposed by the 41 binational Fulbright Commissions and Foundations. The area subcommittees also reviewed with Agency officers specific academic exchanges proposed by USIS posts abroad in participating countries where there are no binational Commissions.

### NEW MEMBERS

President Reagan on April 13, 1984 appointed five new members to the Board of Foreign Scholarships: Brigitte Berger, Professor of Sociology, Wellesley College; Milorad Drachkovitch, Senior Fellow, Hoover Institution; Nathan Glazer, Professor of Education and Sociology, Harvard Graduate School of Education; Richard Ware, President, Earhart Foundation, Ann Arbor; and Marvin Alisky, Professor of Political Science, Arizona State University at Tempe.

Two additional Board appointments were subsequently made by President Reagan: John Willson, Professor of History, Hillsdale College, Michigan, in November; and Forrest McDonald, Professor of History, University of Alabama, in December 1984.

In May 1985 President Reagan accepted the resignation from the Board of Professor Milorad Drachkovitch because of ill health.

### BOARD MEMBERS' VISITS ABROAD

James B. Meriwether, then a member of the Board's Near East/South Asia Area Subcommittee, visited four countries of the region in January 1984 to discuss and observe educational exchange program operations. The countries included were Jordan, Israel, Pakistan and India.

In January 1985, Marvin Alisky represented the Board at a regional meeting on Fulbright Program exchanges in the American Republics held at Sao Paulo, Brazil. The meeting included USIS field officers, Executive Officers of binational Commissions, and U.S.-based program administrators.

Chairman James Meriwether represented the Board at ceremonies in Lisbon marking the 25th anniversary of the Fulbright Program between Portugal and the United States in March 1985. He also participated in the annual Berlin Week program for American Fulbright grantees in Germany, with grantee representation from other European countries, sponsored in part by the Fulbright Commission in the Federal Republic of Germany. On this visit he also met with field officers, program administrators and university officials in the Netherlands, Spain, and the United Kingdom.

## EXCHANGE OF LECTURERS 1984

### U.S. LECTURERS

Number of grants awarded, 1983–1984	542
Number of countries they went to	86
Number of all grants to U.S. lecturers, 1949–1984 inclusive	12,935

### FOREIGN LECTURERS

Number of grants awarded, 1983–1984	167
Number of countries they came from	52
Number of all grants to foreign lecturers, 1949–1984 inclusive	4,547

### COST OF PROGRAM

*(In dollars and local currencies)*

Support to U.S. lecturers	7,945,407
Support to foreign lecturers	2,236,877

## PRINCIPAL AGENCIES ASSISTING IN THE U.S. EDUCATIONAL EXCHANGE PROGRAM

### Board of Foreign Scholarships

The Board of Foreign Scholarships was created by Congress under the so-called Fulbright amendment of 1946 to supervise the virtually worldwide educational exchange program first authorized by that amendment. The intent of Congress was to establish an impartial and nonofficial body which would assure the respect and cooperation of the academic world for the educational exchange program, particularly in the selection of grantees and of educational institutions qualified to participate. The Board sets policies and procedures for administration of the program, has final responsibility for approving selection of all grantees, and supervises the conduct of the program both in the United States and abroad. The Fulbright-Hays Act<sup>1</sup> of 1961, under which the educational exchange program is presently conducted, consolidated and enlarged the authority of the Board.

The Board, appointed by the President of the United States, is composed of 12 members drawn from academic, cultural, and public life. Five geographic area subcommittees of its members select grantees and approve, on a geographic basis, exchange proposals submitted to the Board by local binational Commissions or—in countries which have no Commission—by the local U.S. Embassy or Consulate.

### United States Information Agency

The Bureau of Educational and Cultural Affairs, a major component of the United States Information Agency, serves as the administrative and executive arm of the educational exchange program, as well as other U.S. exchange-of-persons programs. Under the broad policy outlines set by the Board of Foreign Scholarships, the Agency provides administrative staff and secretariat for the academic exchange program, administers directly teacher exchanges, negotiates agreements covering educational interchanges with foreign governments, maintains

overseas on exchange affairs, and, in Washington, seeks the help and cooperation of other U.S. Government and private agencies on particular aspects of the program.

In U.S. Embassies abroad, Agency program activities are the overall responsibility of a Public Affairs Officer. A Cultural Affairs Officer, or an Educational Exchange Officer, where assigned, is usually responsible for exchange program activities. One or both of these officers, or in some countries, the Public Affairs Officer, is a member of the local binational Commission and maintains for the agency a general overview of the conduct of the educational exchange program and liaison with the Commission on policy and program matters. In countries where there is no Commission, the Cultural Officer administers the educational exchange program, including processing grant applications from students and other academic candidates, and providing orientation and local supervision to American grantee participants.

### Cooperating Agencies

To supervise day-to-day operations of the program, the United States Information Agency contracts for the services of the following agencies.

#### *The Institute of International Education*

The Institute (IIE), acting under contract with the United States Information Agency, assists in the *Exchange of Students*. It handles day-to-day supervision of foreign student grantees in the United States and assists in a preliminary review of American student candidates competing for awards. IIE also supervises the *Hubert H. Humphrey North-South Fellowship Program* which brings to the United States mid-career professionals from developing countries.

IIE arranges placement in U.S. colleges and universities of almost all foreign students who have travel and maintenance grants, as well as

The Institute's main office is in New York. It has branches in Chicago, San Francisco, Washington, Houston, Atlanta and Denver; as well as four overseas offices in Mexico City (for Mexico and Central America), New York (for South America), Hong Kong (for Southeast Asia), and a branch office in Bangkok. IIE representatives keep in touch with foreign student advisers on U.S. campuses through reports and personal visits to colleges and universities during each academic year.

#### *The Council for International Exchange of Scholars, American Council on Education*

The Council for International Exchange of Scholars (CIES) affiliated with the American Council on Education, acting similarly under contract to the United States Information Agency, co-operates in the *Exchange of Lecturers and Research Scholars*. CIES assists in a preliminary selection of American lecturer and research scholar candidates and the day-to-day operation and administration of the exchange program for research scholars and lecturers from abroad. The Council uses direct recruitment and open competition to provide panels of recommended American candidates for selection by the Board of Foreign Scholarships. For foreign scholars and lecturers, CIES confirms or arranges placement of candidates, reviews their academic plans, and counsels them on programs and their practical needs and problems. When necessary, the Council calls upon its constituent agencies, and upon professional organizations and academic institutions in the United States to assist it in specialized fields of particular exchange problems.

#### *Other Assisting Organizations*

In addition to the two primary cooperating agencies, several other organizations play major roles in the Fulbright academic exchange program. These organizations, funded in part through grants from the United States Information Agency, conduct exchange activities for students and scholars similar to those performed by the principal agencies described above, but with

involving exchanges of scholars with the Soviet Union and other Eastern European countries. Exchanges with American Republic countries for training college and university faculty members are carried out by the Latin American Scholarship Program of American Universities (LASPAU) and Tufts University. Among selected Middle Eastern countries, the America-Mideast Educational and Training Services (AMIDEAST) arranges study programs for graduate students. The Committee on Scholarly Communication with the People's Republic of China, National Academy of Sciences, arranges for the exchange of American faculty and scholars with the People's Republic.

The final selection of those participants receiving Fulbright-related awards is made by the Board of Foreign Scholarships in accordance with its usual criteria and procedures. The involvement of these organizations has made possible the introduction or expansion of Fulbright exchanges with a number of key countries. The cooperation between the Board of Foreign Scholarships and these experienced educational exchange organizations has added a new dimension to the fulfillment of the purpose of the Mutual Educational and Cultural Exchange Act of 1961.

### **Department of Education**

The Department of Education Organization Act (P.L. 96-88, October 17, 1979) authorized the establishment of the Department of Education which came into existence on May 4, 1980. In the new Department, the Office of Postsecondary Education administers the Foreign Area and Language Training program authorized by section 102(b)(6) of the Fulbright-Hays Act. The responsibility for this section of the Act was initially delegated to the Office of Education (DHEW) by Executive Order in 1962 and the programs conducted thereunder are now both funded and administered by the Office of Postsecondary Education as an integral part of the Department of Education's program. The program under section 102(b)(6) of the Act is designed to promote and improve modern foreign language training and

Abroad, Seminars Abroad, and grants for Foreign Curriculum Consultants.

These programs differ from other Fulbright-Hays activities in that their objective is research and training with no provision for lecturing assignments overseas and no direct exchanges. The programs are meant to improve U.S. education in modern foreign language and area studies. They are a part of the U.S. educational effort in those fields. (The Foreign Curriculum Consultant program, however, does bring consultants from abroad to give direction and authenticity to the development of programs of international/intercultural education in the United States.)

The *Doctoral Dissertation Research Abroad* program awards fellowships, through U.S. institutions of higher education, to Ph.D. candidates to engage in full-time dissertation research abroad in modern foreign languages and area studies with an emphasis on those languages and areas not commonly taught in institutions of higher education in the United States.

The *Faculty Research Abroad* program awards fellowships, through U.S. institutions of higher education, to faculty members of those institutions to conduct research abroad on topics related to modern foreign language and area studies with an emphasis on those languages and areas not commonly taught in institutions of higher education in the United States.

The *Group Projects Abroad* program is designed to contribute to the development and improvement of the study of modern foreign languages and area studies in the United States by providing opportunities for teachers and faculty to study in foreign countries. Grants are awarded to U.S. institutions of higher education, State departments of education, private nonprofit educational organizations or various combinations of such institutions and organizations to conduct overseas group projects in research, training, and curriculum development.

administrators, social studies supervisors, and curriculum directors to participate in short-term seminars overseas on a number of topics focusing on the history, culture, and language of participating foreign countries. The majority of these seminars have been initiated through bilateral agreements, including Memoranda of Understanding, between the Department of Education and selected education ministries abroad.

The *Foreign Curriculum Consultants* program assists U.S. institutions of higher education, State and local education agencies, private nonprofit educational organizations, or various combinations of these institutions to bring educators from other countries to the United States for an academic year to help in developing or improving curricular for teaching modern foreign languages and area studies in the United States.

### **Binational Commissions**

These Commissions are now established and active in 42 countries which have entered into executive agreements with the United States to conduct a program of educational exchange. (There are actually 43 countries served by a Binational Commission, but Belgium and Luxembourg share a single Commission in Brussels.) They are commonly known as either the U.S. Educational Foundation or the Fulbright Commission or some variant of these titles. They are always binational, composed equally of distinguished national educators and cultural leaders and Americans from U.S. Embassy and resident American community. The U.S. Ambassador serves as honorary chairman of the Commission, and the U.S. cultural affairs (or public affairs) officer is almost always a member. The Commission's purpose is to administer the educational exchange program on an impartial and binational basis, to assure that grantees and educational institutions participating in the program are qualified to do so, and to plan and propose educational ex-

NOTE: Data provided by the United States Information Agency. 1983-1984 statistics represent grants which commenced during the period October 1, 1983-September 30, 1984.

1) Cumulative grant totals since 1948 appear in the statistical tables for the 1984-85 program year, beginning on page 36.

2) These totals include 33 grants to foreign nationals for "Practical Training" for 1983-84, not reported elsewhere.

*"The Fulbright exchange is an expansive concept founded on a global vision. A program which once promoted the solidarity of the West now sustains exchanges between the United States and over 120 nations. . . .It expresses, it helps us to master, the growing inter-dependence of the world."*

Secretary of State Henry Kissinger,  
1974

*"Along with the Marshall Plan, the Fulbright Program is one of the really generous and imaginative things that have been done in the world since World War II."*

Arnold Toynbee, 1971

*"Being abroad, I was able to experience first-hand how America is viewed by the rest of the world, and to see more clearly how our country affects the world and is affected by it. . . ."*

*"It is only through actual experience that one's perspective is broadened. This, I think, is the valuable and, at the same time, the most ineffable benefit of the Fulbright Fellowship program. . . ."*

William R. Hall, M.D.  
Fulbright Scholar to India  
1983-84

NOTE: Data provided by the United States Information Agency, 1984-85 statistics represent grants which commenced during the period October 1, 1984-September 30, 1985.

<sup>1</sup>The first exchanges took place in the academic year 1948-49.

<sup>2</sup>Does not include grants awarded in earlier years to foreign nationals to attend American-sponsored schools abroad. Such grants awarded during the period 1949-79 totaled 6,229.

<sup>3</sup>A special program providing a combination of university classes and practical field work experience.
